# HomeVent

## A Healthier Home Starts with Better Ventilation

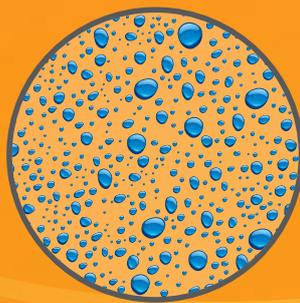

HomeVent delivers a continuous flow of fresh, filtered air throughout your home, gently pushing out damp, stale air to help reduce moisture and condensation.

It's an affordable, set-and-forget solution that keeps your living spaces drier, fresher, and more comfortable all year round.

Protect your home or investment property and everything in it from the damage caused by humidity, mildew, and mould. Enjoy the comfort of cleaner air and a healthier living environment, quietly powered by HomeVent.

**Fresh Filtered Air In  
/ Damp Air Out**

**Reduces Moisture  
& Condensation**

**Minimises  
Airbourne Irritants**

**Simple Set & Forget  
Operation**

Built on Smooth-Air Quality

HomeVent uses quality Smooth-Air components trusted by HVAC professionals across New Zealand. All key components are rated for commercial use - so you can count on them to perform reliably at home.

Ceiling Outlets

Dual Filters

Inline EC Fans

Controller

# HomeVent

**HV 4** Typical 4 OUTLET System Setup

## Inside Every HomeVent System:

**Ceiling Outlets** Adjustable, paintable, and designed for a clean, aesthetically pleasing look in any room.

**Inline EC Fan and Controller** Thermostat-controlled for smart airflow, quiet performance, and energy saving EC fan efficiency.

**Dual Filter System** Wash, and reuse reducing waste and keeping your system running efficiently with minimal upkeep.

**Insulated Ducting** High-quality R0.6 insulation helps maintain consistent temperatures, improving system efficiency and home comfort.

## HomeVent & Healthy Homes Ventilation Standards

**Breathe easier with HomeVent - the smart way to keep your home drier, fresher, and more comfortable.**

HomeVent aligns with the ventilation requirements of New Zealand's Healthy Homes Ventilation Standards, gently introducing fresh, filtered air from outside to create positive pressure that pushes out damp, stale air and helps prevent mould and condensation.

Quiet, efficient, and easy to live with, HomeVent delivers healthy air circulation all year round - no need to open windows or constantly adjust settings. It's the set-and-forget solution for a healthier, more comfortable home environment.

HomeVent includes all the components you need for a healthier, well ventilated home:

Ceiling Outlets

Controller

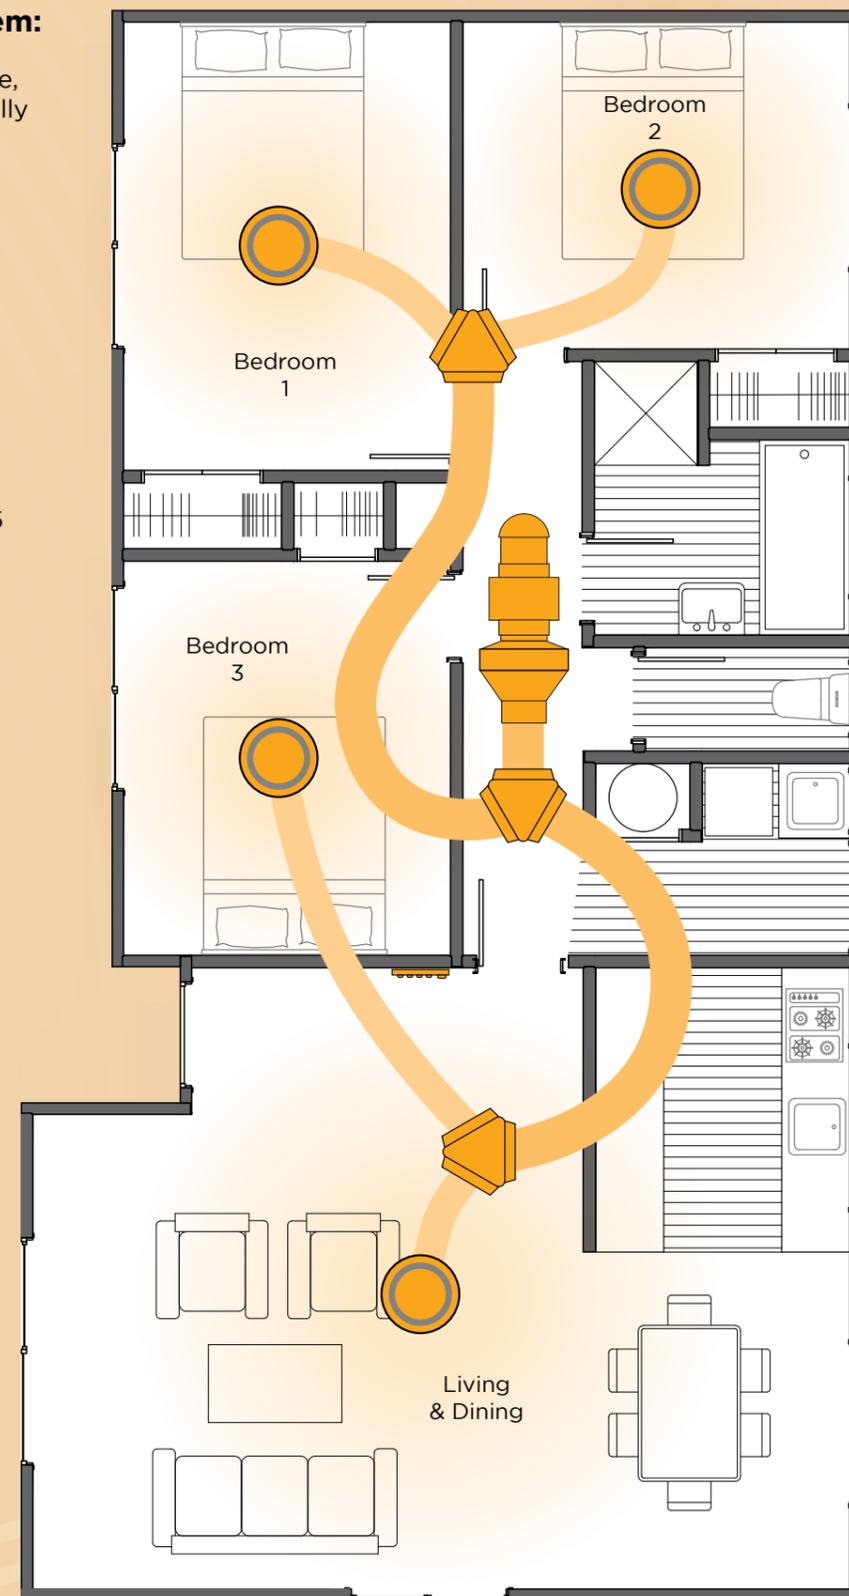

Fan & Filter Unit (in Roof Space)

Ducting Branches

Insulated Flexible Ducting

Two, four, or six zone systems available as standard, ensuring a perfect balance of airflow and efficiency. Custom configurations also available.

## Why Choose HomeVent
